The Department of Primary Industries and Regional Development (DPIRD) will soon commence work in the gardens removing selected trees that have been infested and damaged by the polyphagous shot-hole borer. The City will assist with replacement plantings as soon as possible. Nearby residents are requested to read information provided directly to their homes, on the City's website and at the gardens to ensure the borer does not spread to private properties.

Greetings,

Based on community feedback, I believe Nedlands can be a world leading sustainable city, and I am very keen to explore this across many levels.

At our March Council meeting, we heard strong deputations on the need to save trees - on nature strips and private property - and we are applying to the Commonwealth for a large number of trees to plant as part of the Queen's Diamond Jubilee.

Our next generation is also leading the way to a sustainable future. Recently I joined students from Dalkeith Primary School in the Schools Clean-up Day at Point Resolution. When asked how we can create a world leading sustainable city, one of the students said "be kind". I could not agree more.

I would also like to throw the spotlight onto our wonderful sporting grounds and the opportunities they present for our home-grown athletes.

I congratulate Dalkeith Nedlands Junior Football Club on its recent Open Day at David Cruickshank oval. It was fabulous. The club is now planning its annual footy trip to Wiluna and Mt Magnet in June. Best wishes for the trip. It's your local footy club and everyone is welcome.

And last but not least, April means ANZAC Day and once again we will be holding a service at our Memorial Park in Dalkeith. As parts of the world face great turmoil right now, ANZAC Day may be a time of reflection and prayer for many.

Kindest regards,

Her Worship, Fiona Argyle
Mayor, City of Nedlands
