

Upcoming work

What is happening?

As part of our ongoing commitment to futureproof Perth's water supply, Water Corporation's authorised contractor, Hascon Civil, will soon be renewing water reticulation pipes near you.

The replacement of these pipes is essential to prevent future leaks and breaks and will help improve the security and reliability of the water supply to the area for decades to come.

When is this happening?

Work is planned to **begin on Monday 11 November 2024** and is expected to take **6 - 8 weeks to complete**.

Work will be completed **Monday to Friday, 7am to 5pm**, and Saturdays as required. We will notify you again if we are required to work outside these hours.

Where is this happening?

Work will be completed along Pine Tree Lane between Camelia Avenue and Mooro drive roundabout.

The location of the pipe is shown in the below map.

How will this impact me?

Noise and dust

Noise and dust will be kept to a minimum however, construction will involve road cutting, excavating and compacting.

Traffic management

Traffic management and personnel will be onsite to safely re-direct traffic and pedestrians around the work area.

Access

The new pipe will be installed in the road verge. Access will be interrupted for up to a day while we are completing the section of pipe directly out the front of each property. We will contact you ahead of time to organise access requirements for your property.

Reinstatement of verges and driveways

A temporary reinstatement of your driveway and road will be completed the same day and a permanent reinstatement upon completion of your street.

Please be assured that any affected area, including verges and driveways, will be reinstated as closely as possible to its condition prior to the work.

Water outage

There may be a temporary water supply interruption to your property during the work. We will contact you directly if your property is affected.

Connection pipe

As well as replacing the water pipe along this street, we may also be required to replace your connection pipe. This pipe runs between the new water pipe and your water meter. We will notify you ahead of time if we will renew your connect pipe.

Who can I contact?

For project enquiries, please email MetroWaterRenewals@watercorporation.com.au

For onsite enquiries or concerns requiring immediate action, please contact Ben Shaw, Hascon Civil Project Manager on 0427 293 381.
